Images of the poster are on page 2 and 3 of this document (English and Spanish).

The team photographs of the missionaries who worked in the Episcopal Diocese of the Dominican Republic in 2019 are available in poster format in both English and Spanish versions. This poster is ideally sized for printing in a 20"x30" format. The poster source files in several resolutions and in both PDF and JPG formats are available online at these links:

Some commercial printers require either jpeg or pdf format. Both are available for your use. Since 20"x30" format printing usually requires a commercial printing facility, these files may be downloaded from the Iglepidom website and then uploaded to on-demand online printers such as Walgreens, Walmart, FedEx, UPS Store, and Office Depot/Office Max. The 20"x30" size is a common poster size and inexpensive, ready-to-use frames should be readily available.
